

I send my deepest thanks and gratitude for granting me the John Hart Memorial Scholarship. In all honesty, I've been struggling to find the words that could fully express how grateful I am. While others may simply view this scholarship as a free check, I know in my heart, that I have the responsibility of honoring the memory of John Hart, and the obligation of making the most out of the resources I've been given.

While I know this thank you is very long, I would just like to thoroughly convey how appreciative I am for your support. During my second semester I'll be taking an emergency health class to become EMT certified. Someday I'll move onto medical school, and maybe I'll even become a part of your committee! Who knows?! But let's not get ahead of ourselves...

Thanks for your contribution in my long journey in medicine. I will be writing after 1st semester to send in my grades.

Sincerely,
Jim Yall
